To our Customers

Whether you are a small business or a large corporation, Quark licensing makes it easy to purchase QuarkXPress software.

QVLP is transactional and cumulative, which means no ongoing commitment and no contracts.

The discount level for transactions is determined by the number of licences already owned and the number of licences being purchased, which means lower price points for new and upgrade licences.

Every licence counts towards the calculation of the price level, no matter when the licence was purchased or what version it is. Graduation to the next pricing tier is automatic and immediate.

Licences purchased through QVLP can also be covered by Quark Assurance, which provides free upgrades and updates for a 24-month period at an additional cost.

For more information on: pricing, QVLP brochure or QuarkXPress 7 30-day trial, visit www.scholastic.com.au/softwareprofessional or call Scholastic Customer Service on 1800 665 774 .
