Additional features and services in Adobe Creative Suite 3:

- Adobe Creative Suite 3 includes Adobe Premiere® Pro CS3 and Encore® CS3, without rendering.

**Video Editing**

Adobe® Premiere® Pro CS3

Tell your story with maximum impact using the start-to-finish solution for efficient video production that now includes Adobe Encore® CS3 and Adobe OnLocation™ CS3 (Windows only), formerly the award-winning DV Rack™ HD. Save time with tools that take you from on-set capture using Adobe OnLocation through to output, and edit virtually any format from DV to HD and beyond. Tight integration with Adobe After Effects® CS3 Professional and Photoshop® expands your creative options. Reach the widest audience by delivering your content to DVD, Blue-ray Disc, the web, and mobile devices. Adobe Premiere® Pro CS3 software is your choice for inventive storytelling and enhanced productivity.

**Licensing Options**

- Education Box
- Call for licence pricing

**System Requirements**

**Windows**

- Intel® Pentium 4 or equivalent
- Windows XP Home or Prof with SP 2; Windows Vista™ Home Premium, Business, Enterprise, Ultimate 1GB or RAM of more rec for DV 2GB of RAM or more rec for HD 2GB of RAM or more rec for HDV and HD; 10 GB of available HD space; DVD-ROM drive

**Macintosh**

- Multi-core Intel processor required
- Mac OS X v. 10.4.3 Core Audio-compatible sound card

Adobe® After Effects® CS3 Professional

Bring your vision to life with blockbuster visual effects and compelling motion graphics. Adobe® After Effects® CS3 Professional software features comprehensive compositing and tight integration with Adobe's world-class design applications. Take your inspiration to new heights with innovative new features like Shape Layers, the Puppet tool, Brainstorm, and Clip Notes—all while enjoying an uninterrupted, streamlined workflow. Jump-start projects with hundreds of fully customizable animation presets and templates, or start from scratch and move efficiently between After Effects CS3 and other key applications like Adobe Premiere® Pro CS3 and Encore® CS3, without rendering.

Create and deliver rich, interactive content.

Adobe® Flash® CS3 Professional software is the most advanced authoring environment for creating rich, interactive content for digital, web, and mobile platforms. Create interactive websites, rich media advertisements, instructional media, engaging presentations, games, and more. Designers and developers working on both Macintosh and Windows® systems depend on Flash and the ubiquitous Adobe Flash Player to ensure their content reaches the widest possible audience.

Adobe® Contribute® CS3 software enables anyone to quickly and easily update existing websites and blogs. With Adobe Contribute CS3, content authors can post and publish content to multiple websites and blogs from a single application or publish directly from within Microsoft Office applications. Website administrators can reduce their workload by distributing work among content contributors or designated website editors. And because Adobe Contribute CS3 works seamlessly with Adobe Dreamweaver® software, website integrity is maintained—even when multiple authors update content across the site.

Rapidly create engaging learning experiences for education.

Adobe® Captivate™ 3 software allows educators and students to rapidly create interactive and engaging tutorials, quizzes, and customised training without programming or multimedia skills. Much more than a screen recording tool, Adobe Captivate has a simple point-and-click interface that makes it easy to create complex branching scenarios and include rich media. And because the software complies with important education standards, it is easy to deploy Adobe Captivate’s eLearning content through learning management systems (LMS)—across campus and beyond.

Create professional video presentations in minutes.

Adobe® Visual Communicator™ 3 offers hundreds of customisable graphics, music clips and special effects to create video presentations that look like a television newscast. When presenting in front of a backdrop, users can digitally replace the background with an image or video. The teleprompter allows users to speak confidently without missing key points or memorizing lines. Deliver video presentations via email, CD, DVD, a Channel One Closed-Circuit System, or live over the Internet in FLV using Adobe Flash Media Server.

Autodesk Education Solution Set 2009

Autodesk Educational Solution Sets 2009 (ESS) provide the complete suite of the latest Autodesk Software, Courseware, Curriculum and flexible licencing programmes in a single package to meet the requirements of Architecture, Civil Engineering, Mechanical Engineering and Industrial Design. This unique, cost-effective package meets all your requirements and eliminates the need to procure multiple software from various sources. The Educational Solution Sets provide software tools to meet curriculum requirements, ranging from 2D drafting and 3D modelling, to design visualisation tools, to specialised applications for professional practice. All software products are compatible and integrated, which provides ease of use and functionality. This programme eliminates the inconvenience faced by department heads for selecting various software products from multiple providers. This package also makes software investment affordable and cost-effective.

Note: ESS Program Configurations are subject to change

Autodesk Comprehensive Education Solution - ACES

Autodesk Comprehensive Education Solution 2009 (ACES) is a subscription-based education program that provides institutions with a flexible, simple and cost-effective way to acquire, upgrade and maintain Autodesk software for an annual subscription fee. Latest software and courseware are shipped each year, allowing you to offer your faculties and students the latest version of industry standard design software whilst maintaining simplified budget planning for your management teams. ACES are designed to cover all disciplines and can be adapted to suit single classroom, whole campus or multi-campus configurations. ACES are available in a 30 Seat, 90 Seat and 200 Seat Solution.

Autodesk Educational Licences

3ds Max 2009 Superpack Education
3ds Max 2009 Superpack is the must have modelling, animation and rendering solution for artists, schools and production environments. 3ds Max offers powerful creative workflow tools, including the most comprehensive advanced character animation toolset currently available with acclaimed visual effects and support for next generation product environment. Autodesk 3ds Max software has a short learning curve and vast toolset required to give any future technical director, texture artist or building character animator the chance to quickly learn the basics of 3D animation. Immerse yourself in science, maths, language, arts and technology with Autodesk 3ds Max, our state-of-the-art 3D animation package.

AutoCAD® 2009 Education
AutoCAD® 2009 software propels day-to-day drafting forward with features that increase speed and accuracy while saving time. Meticulously refined with the designer in mind, AutoCAD adds features to help make everyday tasks easier. Annotation scaling and control of layers by view port minimize workarounds, while text enhancements, multiple leaders, and improved tables help deliver an unmatched level of aesthetic precision and professionalism. AutoCAD is available as a single user seat+.

**Instantly turn speech into text.**

Dragon NaturallySpeaking® Preferred gives you the power to create documents, reports, emails and more—all by speaking! Fast, easy and amazingly accurate, it’s over three times faster than typing. No script reading required to get started! Just use your voice to dictate and edit in Microsoft® Word and Excel®, Corel® WordPerfect® and virtually all Windows®-based applications. You can even dictate into a handheld device when you’re away from your PC, or use a Bluetooth microphone! Browse, search and navigate the Web just by talking! Listen to incoming email and documents read aloud. Use dictation shortcuts that enable you to insert blocks of texts or bitmaps—such as your name, title and signature—with a single voice command. A Nuance-approved noise-cancelling microphone is included.

**Everything you need to convert, create and edit PDF files.**

PDF Converter Professional is the first product that combines PDF creation from any PC application with the amazing ability to turn PDF files into fully-formatted Microsoft® Word documents. PDF Converter Professional significantly improves productivity by providing the ability to seamlessly move information between the two dominant electronic document formats - Microsoft Word and PDF. With PDF Converter Professional, education institutions now have access to an industry-leading PDF solution that has the price, performance and features that can put the power of PDF on every business desktop.

**Turn paper and photos into organised digital documents.**

PaperPort® 11 is the easiest way to turn piles of paper and photos into organised PDF and JPEG files that you can quickly find, use and share. PaperPort produces perfect scans every time with the push of a button. Your documents are displayed as small thumbnails on a unique visual desktop for fast browsing. End the frustration of looking for paper or digital documents by searching for words inside your files, with the exclusive All-in-One Search™. Save time and have the security of knowing that important documents and photos will never be lost. PaperPort is perfect for teachers at home or any school office.

**Convert paper and PDF into editable documents.**

OmniPage Professional 16, the latest version of the world’s best selling OCR software, is the most precise way to convert documents, PDF, XPS files and forms into your favourite PC applications. Superior accuracy (99%+) and formatting combine with easy-to-use workflow technology to automate all your conversion needs.
DESIGN & PRESENTATION TOOLS

For a classroom of wireless freedom.

With the new Graphire Bluetooth, lecturers and students have the ability to do pen-based drawing, sketching, illustration and powerful presentations where and when they want. A battery life of up to 25 hours, two on-tablet programmable ExpressKeys designed to optimise workflow by providing quick access to commonly used modifiers, mouse-clicks, and keystrokes plus a 4-metre cable on the universal power adapter make it a convenient tool for getting the most out of IT in the classroom. Bluetooth adapter is included. Wireless technology works over distances of up to 20 metres.

FEATURES
> Bluetooth Wireless and battery-free pen technology
> 512 levels of pressure-sensitive control on pen tip and eraser
> 2032 lpi tablet resolution
> Programmable ExpressKeys
> Transparent photo frame
> Rechargeable lithium polymer battery
> Plug and Play
> 6” x 8” active area

The evolution of visual communication.

The Wacom Interactive pen Display combines TFT LCD monitor with a Wacom tablet. It can be easily connected to a projector for an enlarged screen, to facilitate visual communication between the teacher and students in the digital classroom!

Teachers can hand-write and draw on-screen with an intuitive pen interface, while students can see the annotations in real-time on the projector. Teachers can maintain face-to-face communication more effectively and integrate class feedback easily.

OPTIONS
DTI-520 15” Education $1650
