This book is an adventurous funny story about a boy called Ben Pole who is having the worst day ever after getting chased and bullied by Monty and his gang. That day Ben hid under a giant bin that turned out to be tunnel. It led to a jungle where he found a little creature called King Coo and soon they became good friends. Monty and his gang followed Ben into the jungle and tried to stop him so he could get revenge on Ben for denting Monty's tooth. King Coo uses his wild wacky inventions to slow Monty and his gang down. My favourite part was when Ben found King Coo and saw its beard. It was so long that you couldn't see King Coo's body.

I give this book a 4-star rating. It was hilarious entertaining and there were surprises in every chapter.

I recommend this book for children from ages 7+. There were lots of illustrations which would make this book appropriate for this age group.
