Cosentino - the grand Illusionist - is magical and performs lots of tricks even for the king. Ace escapes the army and leads us on a thrilling adventure. Cosentino has come to save the day in this funny mysterious and even scary fantasy story.

I really enjoyed reading this book. I read the whole story in a day and didn't want to put it down until I finished. I would have liked the characters to be introduced more at the start. The story had lots of complications and kept me interested. I would like to read more of Cosentino's adventures and also really liked the illustrations.

I would recommend this book to everyone. I think lots of people would like this story from 5yrs to 30yrs
