

Summer Reading

Sun Catcher

1 Draw or trace the outline of the sun (see next page) onto a piece of black cardboard.

2 Cut out the pieces.

3 Cut out the triangles in the circle (you may need some help with this). Stick a piece of coloured cellophane on the back of the circle.

4 On each rectangular ray write something you liked about the book you've just read. This could be your favourite part, character or quote.

5 Glue the rays onto the circle.

6 Stick a piece of string on the back and hang it in your window.
