

Hello, **little racer,**
welcome to the track!
Let's go racing,
you can give it a crack.

Gather the **team** together,
there's lots of jobs to do:
engineers and mechanics,
plus the driver,
that's you!

You need to **make the car go fast**,
that can take a little time.

The team have analysed the data,
there's still a hill to climb.

It's time to get suited up.
Grab your gloves, come on!

Buckle up your helmet
-WAIT!

Have you got your **fireproof undies** on?
