Time is running out. Qibli knows Darkstalker must be stopped. And he knows he could stop him—if he had magic. With even a sliver of the ancient dragon's all-powerful scroll, Qibli could rewrite history the right way: end the war forever, make every dragon happy, perhaps even cast a very small spell so that everyone would like him ... But the prophecies are not easy to rewrite. Using only the small animus objects he's borrowed from Turtle, can Qibli be the magical force Pyrrhia needs, or will he be the one to bring Jade Mountain—and his family, his friends, the whole world—crashing down?

Years after her first tumble down the rabbit hole, Alice returns to Wonderland. Unlike England, only Wonderland can grant her the freedom she craves, like the chance to open a magical tea shop. Even though Alice expects madness from the Mad Hatter, the March Hare, and the Cheshire Cat, she doesn't expect to meet another real-world teen who claims she is the "true" Alice who first explored Wonderland. Nor does she expect to get captured by the Queen of Hearts' soldiers—and meet dozens more so-called Alices at the castle. Based on a prophecy, the Queen believes only one Alice can save them all from the threat of three ghostly mock dragons. She declares that Wonderland's saviour will be named Alice, while the others will be exiled—for good. Determined to secure her future, Alice sets out on a daring quest, equipped only with her enchanted teacups. Hesitant to trust other Alices, she tenuously aligns with a strange boy connected to the fearful jabberwocks of lore. But is Alice truly the Alice in Wonderland, or a mere footnote in another heroine's story?
