As the mysterious voice gets louder, Louise comes to realise their mission in life may be much bigger than either of them ever could have imagined! Eleven-year-old Avery Lee loves living in Hickory Valley, Maryland. She loves her neighbourhood, school, and the end-of-summer fair she always goes to with her two best friends. But she's tired of feeling squished by her six siblings! They're noisy and chaotic and the younger kids love her a little too much. All Avery wants is her own room her own space to be alone and make art. So she's furious when Theo, her grumpy older brother, gets his own room instead, and her wild baby brother, Max, moves into the room she already shares with her clinqing sister Pearl! Avery hatches a plan to finally get her own room, all while trying to get Max to sleep at night, navigating changes in her friendships, and working on an art entry for the fair. Fire. Flood. Ice. Three forces of nature. Three kids swept up in a looming global catastrophe. Can they survive? In California, Akira Kristiansen is driving through the mountains with his dad when a wildfire sparks — and grows scarily fast. In just moments, Akira and his family have to evacuate but which way is safe with fire all around them? In Churchill, Manitoba, Owen Mackenzie is running a tour for travellers who've come to see the polar bears. Lately the bears show up more and more as the ice thins. When Owen and his friend see a bear much too close for comfort, they end up in a fight for their lives. In Miami, a hurricane bears down on Natalie Torres. That's not so uncommon ... but everyone's saying this could be it. The Big One. Natalie and her mum don't have anywhere to run to, so they hunker down to ride out the storm. Separated by hundreds of miles, Akira, Owen, and Natalie each struggle to survive against seemingly insurmountable odds. What ultimately connects the three kids is both surprising and hopeful: a commitment to changing the world, however and wherever they can.

- · Just as Refugee brought awareness of the refugee crisis to young readers, Two Degrees will shed light on the increasingly urgent threat of climate change.

NOVEL

Mars has always been the lesser twin, the shadow to his sister Caroline's radiance. But when Caroline dies under horrific circumstances, Mars is propelled to learn all he can about his once-inseparable sister who'd grown tragically distant. Mars's gender fluidity means he's often excluded from the traditions—and expectations—of his politically-connected family. This includes attendance at the prestigious Aspen Conservancy Summer Academy where his sister poured so much of her time. But with his grief still fresh, he insists on attending in her place. What Mars finds is a bucolic fairytale not meant for him. Folksy charm and sun-drenched festivities camouflage old-fashioned gender roles and a toxic preparatory rigour. Mars seeks out his sister's old friends: a group of girls dubbed the Honeys, named for the beehives they maintain behind their cabin. They are beautiful and terrifying and Mars is certain they're connected to Caroline's death. But the longer he stays at Aspen, the more the sweet mountain breezes give way to hints of decay. Mars's memories begin to falter, bleached beneath the relentless summer sun. Something is hunting him in broad daylight, toying with his mind. If Mars can't find it soon, it will eat him alive.

SALES POINTS:

- · Heathers meets Midsommar in this bougie summer camp nightmare. It's YA horror unlike anything out there.
- · Dark in tone, but wrapped in a deceptively bright package, this is a story of corruption festering just beneath the illusory perfection of the uber-rich and well-connected.
- The story also poignantly explores themes of grief and guilt. Mars's experience with mourning comes from a very personal place for Ryan.
- · Ryan is something of a self-made star. He has a devoted online following and is an extremely talented public speaker. He's brimming with promotional ideas.
- There isn't a ton of gueer-focused horror out there right now, especially by gueer authors. Scholastic has an opportunity to lead the pack.

Queen Anna of Arendelle has been preparing for the Polar Nights celebration that is held every year to welcome the days when the sun doesn't rise in the polar circle. Joined by Kristoff, Sven and Olaf, Anna reunites with Elsa in the Enchanted Forest. After a night of spooky stories around the campfire, Olaf swears that one of the creatures from their tales has come to life! Who else could be responsible for the sudden onset of storms and the earlier-than-normal darkening of the skies? Why else is everyone starting to become so forgetful? Anna and Elsa join forces to determine what is going on. Together they recall Kristoff's terrifying tale about a princess who turned into a draugr—an undead creature that steals memories to make others forget the misdeeds it committed when it was alive. Is it possible that Kristoff inadvertently unearthed memories of a draugr and thus unleashed the monster upon Arendelle? Anna and Elsa must uncover the real story behind the tale before everyone in Arendelle forgets who they are and their world is cast into darkness forever ...
